Field Maps Instructions

To fully utilize the benefits of the digital copy of the map, hunters should download the free app named **'Field Maps'**. This app is available for both Android and iOS. This app will allow you to use the hunt map in a similar manner to Google Maps or other mapping software. You will be able to geo-locate yourself on the hunt map, as well as drop point markers. This will allow you to better locate your stand as well as mark any areas of interest you may want to revisit if you are attending a zone hunt. One of the benefits of this app is you do not need phone service. The map is saved onto your phone and all you need to navigate is a GPS signal.

- 1. Visit your app store (Google Play or Apple's App Store) and search for 'Field Maps'.**
- 2. Download and install the app.**
- 3. Press "Skip sign in".**
- 4. In the search bar, search for the park in which you are hunting. For example, typing in "Lake Anna State Park" in the Field Maps search bar, will bring up the Lake Anna State Park map (the park map) AND the Lake Anna State Park Hunt map. You can then download the map for free within Field Maps.**
 - You may also press the link on our hunt website (<https://www.dcr.virginia.gov/state-parks/hunting>), which will directly link you to the download of that park within Field Maps.
- 5. When you're in the park, open the Field Maps app, and choose the appropriate map. Your location will show up as a small blue dot within the map.**

NOTE: You may need to turn on "allow downloads with cellular data" in your phone's settings if you are not connected to wifi when downloading a map.
